

Pon metro Bologna

The Municipality of Bologna runs, as Urban authority, the national operational Programme metropolitan cities 2014 - 2020 (Pon metro), adopted by the European commission, which has a relevant impact on the City of Bologna and on the whole metropolitan area directly, in terms of financial allocations and specific interventions.

Pon metro, the European programme addressed to the 14 metropolitan cities in Italy, supports the priorities of the European urban agenda focusing on the urban areas as key points to implement actions for a smart, inclusive and sustainable growth.
