

**Join in if you
don't believe it!**

**Quartiere
starts from you.**

Laboratori di Quartiere Bologna

Laboratori di Quartiere Bologna

Year after year, since 2017, Laboratori di Quartiere (Neighbourhood workshops) have been trying to involve citizens and local communities: through Laboratori, you can come up with new ideas to improve your neighbourhood, reclaim public spaces, and much more.

How? By attending meetings or sending your ideas to: comune.bologna.it
Enquire at your local boards and come to the meetings, to make your ideas come through with the help of the city's engineers and co-design experts. In this way, you will also help us develop new policies for your neighbourhood and inject new life into 11 public buildings that will be reopened for the local residents, communities and associations. If you don't believe us, join as a new citizen of Bologna. Quartiere will start as soon as you join in.
